SUBJECTS

Abscess

- Microbiology of intracranial abscesses associated with sinusitis of odontogenic origin, 917
- Redefining parapharyngeal space infections, 117

Academic practice

- The academic practice of otolaryngology: philosophical and practical perspectives, 403

Acute tonsillitis

- Cost-effectiveness of tonsillectomy for recurrent acute tonsillitis, 365

Adductor spasmodic dysphonia

- Treatment of adductor-type spasmodic dysphonia by surgical myectomy: preliminary report, 97

Adenocarcinoma

- Immunohistochemical distinction of intestinal-type sinonasal adenocarcinoma from metastatic adenocarcinoma of intestinal origin, 59
- Metastasis of prostatic adenocarcinoma to sphenoid sinus, 690

Adenoid

- Bacterial interference of penicillin-sensitive and -resistant *Streptococcus pneumoniae* by *Streptococcus oralis* in adenoid organ culture: implications for treatment of recurrent upper respiratory tract infections in children and adults, 350

Adenovirus

- Characterization of rat spiral ligament cell line immortalized by adenovirus 12-simian virus 40 hybrid virus, 930

AdOnco

- AdOnco: database for clinical and scientific documentation of head and neck oncology, 144

Adult-onset laryngeal papillomatosis

- Natural history of adult-onset laryngeal papillomatosis following multiple cidofovir injections, 175

Age

- Age-related expression of α -gustducin in rat larynx, 387

Airway

- Airway resistance and airflow dynamics after fat injection into vocal folds, 810
- Pyriform sinus mucosa stabilization for prevention of postoperative airway obstruction in arytenoid adduction, 171

Allograft tracheoplasty

- Allograft tracheoplasty technique for management of refractory tracheal stenosis, 302

Ambulatory monitoring

- Ambulatory monitoring of disordered voices, 795

Amyotrophic lateral sclerosis

- Sensory testing in assessment of laryngeal sensation in patients with amyotrophic lateral sclerosis, 528

Anastomosis

- Releasing tension on tracheal anastomosis: ex vivo study on sheep model, 398

Animal model

- Subglottic wound healing in new rabbit model of acquired subglottic stenosis, 611

Anosmia

- Magnetic resonance imaging findings in evaluation of traumatic anosmia, 124

Anterior atticostomy

- Anterior atticostomy for cholesteatoma surgery, 150

Anterior cricoid split

- Changing trends in success rate of anterior cricoid split, 833

Antibiotic resistance

- Penicillin resistance is not extrapolable to amoxicillin resistance in *Streptococcus pneumoniae* isolated from middle ear fluid in children with acute otitis media, 186

Antistreptolysin

- One-off streptococcal serologic testing in young children with recurrent tonsillitis, 357

Approach

- New method of identifying internal auditory canal as seen from middle cranial fossa approach, 457
- Thyrohyoid approach for vocal fold augmentation, 699

Artery

- Dissection of internal carotid artery following trauma of soft palate in children, 323

Arytenoid adduction

- Pyriform sinus mucosa stabilization for prevention of postoperative airway obstruction in arytenoid adduction, 171

Aspiration

- Fine needle aspiration of vocal fold lamina propria in animal model, 764
- Morphological and histologic examination of epiglottitis: implications for improving epiglottic closure technique, 23

Atresia

- Evaluation of recovery from transient facial palsy following canalplasty and tympanoplasty for treatment of congenital aural atresia, 749

Auditory neuropathy

- Multiple auditory steady-state responses in children and adults with normal hearing, sensorineural hearing loss, or auditory neuropathy, 268
- Temperature-dependent auditory neuropathy: is it acoustic Uthoff-like phenomenon? Case report, 518

Bacterial interference

- Bacterial interference of penicillin-sensitive and -resistant *Streptococcus pneumoniae* by *Streptococcus oralis* in adenoid organ culture: implications for treatment of recurrent upper respiratory tract infections in children and adults, 350

Bakamjian flap

- Deltoidpectoral flap revisited in microvascular era: single-institution 10-year experience, 35

Balloon

- Balloon sinuplasty: not ready for prime time, 789
- Commentary on "Safety and Feasibility of Balloon Catheter Dilation of Paranasal Sinus Ostia: A Preliminary Investigation," 300
- Misconceptions regarding balloon catheter dilation of paranasal sinus ostia, 791
- Safety and feasibility of balloon catheter dilation of paranasal sinus ostia: preliminary investigation, 293

Bell's palsy

- Detection of herpes simplex and varicella-zoster viruses in patients with Bell's palsy by polymerase chain reaction technique, 306

- Benign intracranial hypertension**
 Spontaneous cerebrospinal fluid leaks: variant of benign intracranial hypertension, 495
- Biofilm**
 Bacterial biofilms in chronic rhinosinusitis, suppl 196:35
- Birth weight**
 Histopathologic changes in laryngeal mucosa of extremely low-birth weight infants after endotracheal intubation, 816
- Book Reviews**
